Preamble

Legal entity

The Scouting Movement in the Republic of South Africa is represented by a single legal entity, namely SCOUTS South Africa (SSA). All financial accounting and reporting (with the exception of the individual Scout Groups) will be consolidated in the name of SCOUTS South Africa (this will include all national and regional camps, events and training activities, other than those carried out by individual Scout Groups).

One Corporate Body

SSA is one corporate body (refer to the Constitution Article 1) and as such all the component units, including individual Scout Groups, are subject to the Constitution, Organisation Rules and Policies and decisions of the committees set up to operate and administer Scouting in South Africa.

One Finance, Fundraising & Administration policy

There shall be one Finance, Fundraising and Administration policy applicable to both SSA and all its individual Scout Groups. Failure to comply with the policy, procedures and rules as set out will result in that group acting ultra vires to the constitution and accordingly will place that group in bad standing with SSA (refer to the Organisational Rules Section 5).

Accountability

All members who accept positions of financial or administrative responsibility shall be accountable to the Treasurer at the next reporting level. All income and expenditure must be accounted for by way of annual financial statements or financial reports as required by the next reporting level. Such members that accept a position of financial or administrative responsibility are required to make themselves fully acquainted with all the financial policies and procedures of SCOUTS South Africa.

Membership Data

SSA has specifically ruled that the distribution of/ sale of/ trading of/ or any other utilisation of membership data/ lists in exchange for any gain is prohibited. The records of all members are confidential and must under no circumstances be open to the scrutiny of anyone other than those with the authority to do so.

Revision Approval

This revision of the Finance, Fundraising and Administration Policy was approved for publication at the SCOUTS South Africa Executive Committee via email on 30 June 2015 by the committee comprising:

Mr S Vilane; Dr B Hausberger; Mr J Fraser; Dr A Griffiths; Mr K Mdaka; Mr A Petrie; Mr D Robinson; Mr H Sibande; Ms M Siebrits and Mr A Tanner.

1. FINANCES

1.1. SCOUTS South Africa National Office

1.1.1. *Financial reporting*

Accounting records produced in the name of, or on behalf of SCOUTS South Africa (previously South African Scout Association) must be accounted for by way of generally accepted accounting practice. These accounting records must be available at all times in order to allow for the scrutiny thereof by the Scout Executive Committee (Exco) and the Board of SSA (as referred to in the Constitution and Organisational Rules) or any body to which they delegate said authority. The National Office is required to produce annual financial statements in a format approved by the National Finance Committee and signed by an independent firm of auditors and to present this for approval at the Board meeting annually. The annual financial statements as presented will not include the financial statements and assets of individual Scout Groups. The financial year shall close on 30 September. The annual financial statements must be approved by no later than six months after year-end.

1.1.2. *Budget Approval*

(a) SSA National office

The SSA National Office and all Regions shall present an Exco approved annual budget, at least one month prior to the commencement of the financial year, through the Chief Scout, for approval by the Governing Board of SSA.

(b) Properties

As per the SSA Property Policy all properties which fall outside of the Social Partnership Agreement (as referred to in the SSA Constitution) shall present an annual budget to the National Property Committee for approval, at least one month prior to the start of each financial year. The National Property Committee shall not have the authority to approve a loss making budget unless it is a short term loss and is fully motivated.

(c) National camps, events and training activities

All national camps, events and training activities shall be self-financing and a budget showing how this is to be achieved shall be the first planning tool for the activity. The Activity organiser will need to determine the closing date for entries and the minimum number of participants to make it financially viable. Should the minimum number for financial viability not be achieved by the closing date the activity will be cancelled. All such activities shall rely solely on funding from participants and/or or donor funding. Prior to the activity taking place, should the National Office be required to release any funding to cover expenditure relating to the activity, such release shall only be made on the basis of registered and paid participants.

All national camps, events and training activities with a budget in excess of R500,000 shall be required to present such budget to the National Finance Committee of SSA for

approval at least three months prior to the activity, and before a fee is set for the activity, whichever comes first.

All national camps, events and training activities with a budget of less than R500,000 shall be required to present such budget to the CEO of SSA for approval at least two months prior to the activity, and before a fee is set for the activity, whichever comes first.

From time to time national events may make a surplus, after having provided for capital expenditure. In this case the surplus should be used to make future events more accessible either through a reduction in the fee for future events or through sponsoring Groups and/or Scouts who may not otherwise be able to attend such events. The plans to use the surplus should be signed off by the National Finance Committee.

1.1.3. SARS: Public Benefit Organisation status and Section 18A status

Only the National Office may issue a Section 18A certificate.

1.1.4. Bank accounts

Their responsibilities will include:

All regional camps, events and training activities shall be self-financing and a budget showing how this is to be achieved shall be the first planning tool for the activity. The Activity organisers will need to determine the closing date for entries and the minimum number of participants to make it financially viable. Should the minimum number for financial viability not be achieved by the closing date the activity will be cancelled. All such activities shall rely solely on funding from participants and donor funding. Prior to the activity taking place, should the Regional Office be required to release any funding to cover expenditure relating to the activity, such release shall only be made on the basis of registered and paid participants.

All regional camps, events and training activities with a budget in excess of R500,000 shall be required to present such budget to the National Finance Committee for approval at least three months prior to the activity, and before a fee is set for the activity, whichever comes first.

From time to time regional events may make a surplus, after having provided for all capital expenditure. In this case the surplus should be used to make future scout events more accessible either through a reduction in the event fee for future events or through sponsoring Groups and/or Scouts who may not otherwise be able to attend such events. The plans to use the surplus should be signed off by the Regional Commissioner.
