

Champions for Nature and Biodiversity Self-Assessment

*Connecting with Nature
and protecting it towards sustainability*

I am at the beginning of my path and I need to learn more about the issues.

I am on my path and have started a project or activity.

I understand the issues, participate in activities and projects and promote the solution to the issue.

My Personal Goals

I can choose an issue I want to impact with positive actions

My Activities

Define an activity or project, either personal or with my Patrol

1	I know my countryside and learn about local habitats and species.	I understand the roots of biodiversity loss at both the local and global levels.					
2	I feel good and enjoy the outdoors and appreciate nature.	I can identify different standpoints in environmental conflicts and form my own opinion based on personal values.					
3	I respect other living organisms while spending time in nature and I know how to behave to avoid impacting them.	I reflect on how to live my life in harmony with nature and how to help my society to become more sustainable.					
4	I take part in events that help to protect and restore nature in our region.	In my everyday life, I take into account and measure the impact of my actions on nature and inspire others to do so as well.
