

CORONAVIRUS AWARENESS

In light of the recent Declaration of a Disaster, we must be aware of the impact of COVID-19 on users of our Facilities

HERE'S WHAT WE KNOW

The symptoms of coronavirus (COVID-19) are **similar to the flu** with fever, coughing and shortness of breath.

It is spread by direct contact with infected droplets or through coughing and sneezing without covering your mouth and nose. The most effective way to minimise the spread of COVID-19 is to **WASH YOUR HANDS FREQUENTLY** while singing a Campfire Song and **AVOID TOUCHING YOUR FACE**.

HOW TO PREVENT GETTING CORONAVIRUS (COVID-19)

Wash your hands often with soap and water for at least 20 seconds or use a hand sanitizer.

Cover your cough or sneeze with a tissue"

Throw tissues or wipes away that you sneezed or coughed into.

Clean and disinfect frequently touched areas and objects using cleaning spray or wipes.

Avoid close contact with people that are sick.

Avoid touching your eyes, nose and mouth.

IF YOU HAVE THE FOLLOWING SYMPTOMS:
